**Class • Function • Value**

**Golf Industry's Multi-Billion Dollar Weather Interruption Solution**

## Golf Industry Facts:

- ┌ After greens fees, golf car rentals comprise the largest moneymaker for golf courses.
- ┌ The greatest source of lost revenue for golf courses is weather interruption.
- ┌ 90% of all rain and temperature spike events become playable with **Curtis Climate Control™**.
- ┌ **Curtis Climate Control™** directly increases greens fee revenue year round, allowing more spring, fall and winter play.

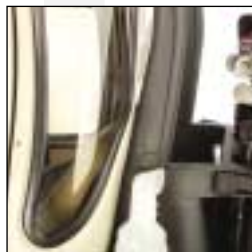

- ┌ **Smart Design Approach**  
Entire Curtis system utilizes Club Car's OEM roof and windshield.
- ┌ **Rugged Material Choice**  
CNC formed tubular supporting structure with custom thermoformed panels.
