

48SS

We simply choose to lead.

48SS

12" Aluminum Wheels

Clear LED Tail lights

Custom Steering Wheel

Tomberlin Automotive Group understands that many people desire more performance and a unique look for their cars. Many owner's rely on the aftermarket for these upgrades.

Rather than force customers to use higher cost and lesser quality aftermarket components, We are is pleased to offer a fully customized, high performance car direct from Tomberlin. Providing quality, function, and value!

The new E-Merge 48SS is the ultimate neighborhood driving machine. Included are the standard E-Merge features; 4-wheel brakes, seat belts, trunk, speedometer, on-board digital charger, 25 mph top speed and it is street legal in most communities*. The 48SS also includes unique eye catching features; 12" custom aluminum wheels, low profile tires, custom bolstered seats, automotive glass windshield, clear LED tail lamps, woodgrain trim accents, and unique graphics.

Additionally, every 48SS model comes with a 400 AMP (19.2 Kilowatt) specially programmed motor controller for outrageous acceleration and higher speed hill climbing.

MORE POWER!
